

Summary for children and young people

Name: Ambleside

URN: 1250253

Date of inspection: 09 and 10 April 2019

Hello!

I hope that some of you will remember me. I visited Ambleside recently to inspect the home where you come and have overnight stays.

I would like to thank you for spending time with me when I visited.

It was lovely to be able to meet with some of you and see you enjoy the activities that you went on in the Easter holidays.

As well as talking to some of you, I gathered lots and lots of other information. I talked to staff, to other people whose job it is to help you and to some of your parents. I looked through lots of files and read lots of different documents. Having looked through all of this information, I think that Ambleside is good. This is because:

- You make progress because of the support that you get from the staff.
- The staff team makes sure that you are looked after well and have fun.
- Your families said that Ambleside is excellent.

I have asked Katy to make some improvements to your care plans and risk assessments to make things even better.

If you want to know any more about the inspection, Katy will be happy to talk to you about it.

So, thank you once again for your time. It was a genuine pleasure to meet you.

Cathy
